

CCE NORTHEAST NY FRUIT PROGRAM - WILLSBORO WINE GRAPE TRIAL, ESTABLISHED SPRING 2005.
 (25 WINE GRAPE CULTIVARS IN PANELS OF VINES EACH PANELS RANDOMLY ASSIGNED PER BLOCK AND REPLICATED 4X)
 A Joint Effort of the Growers and County Extension Association of Cornell University Extension's Northeast NY Commercial Fruit Program,
 the Lake Champlain Grape Growers Association, the Cornell Willshoro Farm, and
 the Small Grants Program to Enhance Specialty Crop Production Businesses, of the New York Farm Viability Institute.

Elevation: 187' above Lake Champlain.
 Latitude 44 degrees 23'
 Longitude 73 degrees 23'
 Soil: Lacustrine plain,
 Glastic till (Bomby).
 Cool temperate climate,
 150 day growing season.

Drawn to scale. (Spreadsheet shows 2' per square except sheet rows 10, 11, 148, 149 which are 1' north & south by 2' east to west.)
 In-row spacing at 8 ft between vines
 Space between rows at 10 ft.

Number of 8' in-line posts: 99. Based on one post every 24 ft. and row lengths of 248 ft minus 8 ft anchor space and rows number being 11 minus 1 post per row so rows begin and terminate with an angled 10' end-post.
 Number of 10' end posts: 22. Based on 11 rows x 2 per row. Total number of 8 ft posts (3-4" Diameter) equals 121.
 Number of 5' anchor posts: 22. Based on 11 rows x 2 per row. Total number of 10 ft posts (5-6" Diameter) equals 22.

Errata discovered since planting, and also name changes:
 Marquette is the former MN 1211. Noiret originally identified as NY 73. Ravat proved to be misidentified and remains so. This listing "Not Ravat".
 The Vine in position "A" Panel 5 is St. Pepin and not Landot. The Vine in position "V" Panel 8 is LaCrosse and not Leon Millet.
 The Vine in position "B" Panel 9.5 is MN 1200 and not Marquette. Row 11 previously contained several table grapes and extra wine grapes. These were not part of the trial.
 Removed in spring 2012
